Company Overview

Empower Consulting Limited is a Gibraltar-based company operating as an Energy, Logistics & Compliance Solutions Provider, supporting organizations engaged in complex international operations across the oil & gas and energy infrastructure sectors, with a specific focus on pipeline-related operations.

The Company focuses on providing structured consulting and coordination services in environments where cross-border operations require alignment between logistics, regulatory frameworks, workforce mobility, and local operational requirements.

The idea behind the foundation of the Company originates from the more than twenty years of industry experience of its founder, Ennio Luca Domicoli, PMP®. Throughout his career, he has directly managed and experienced the operational, logistical, regulatory, and workforce-related challenges that typically arise in international projects and overseas assignments.

Having worked extensively on complex projects abroad, he developed a deep understanding of the critical issues that can affect project execution, timelines, workforce coordination, local compliance, and overall operational efficiency.

This direct field experience led to the decision to establish Empower Consulting Limited as a specialized consulting and support company, designed to assist clients in addressing the most critical aspects of international energy and infrastructure projects.

Today, these areas represent the core business of the Company, with a focus on helping organizations successfully manage the operational complexities associated with cross-border projects and pipeline-related activities.

Empower Consulting Limited operates across Europe, Africa, and Latin America, assisting clients in managing operational complexity through a practical and execution-oriented approach, particularly in environments related to pipeline development and international energy projects.

The Company works in collaboration with independent and duly licensed third-party service providers, where required, ensuring that all activities are conducted in accordance with applicable regulations.

The Company acts exclusively as a consulting and coordination entity, supporting clients in structuring and managing the essential operational elements necessary for the successful execution of international projects, with particular experience in pipeline and energy infrastructure projects within the oil & gas sector.

Regulatory Status And Licensing

Empower Consulting Limited operates as a duly registered and authorized entity in Gibraltar.

The Company is licensed by the Office of Fair Trading under the applicable regulatory framework, permitting the provision of professional consulting and support services.

This authorization supports the Company's activities in areas such as:

- ❖ Business and operational consulting.
- ❖ Project coordination.
- ❖ Workforce and recruitment advisory.

The Company conducts its activities in full compliance with applicable regulations, ensuring a structured and transparent operating framework.

This regulatory framework supports the Company's activities in international oil & gas and pipeline-related environments.

Business Scope

Empower Consulting Limited provides consulting and coordination services designed to support organizations operating in multi-jurisdictional environments, with particular relevance to oil & gas operations and pipeline infrastructure projects.

The Company's activities focus on the alignment and management of key operational processes that are critical for the execution of international projects, including logistics coordination, regulatory compliance, workforce mobility, and supply chain structuring.

This includes logistics coordination related to pipeline materials, regulatory alignment in oil & gas environments, and support to multi-jurisdictional project execution.

Rather than acting as a direct service operator, Empower Consulting Limited supports clients by coordinating activities, aligning stakeholders, and facilitating the interaction between project requirements and local operational frameworks.

All regulated or specialized activities are performed, where necessary, through qualified and authorized third-party service providers, ensuring full compliance with applicable laws and standards.

Mission and Vision

❖ Mission

To support organizations operating in complex international environments, particularly within the oil & gas and pipeline sectors, through structured consulting and coordination services, ensuring that logistics, regulatory, and operational processes are aligned, compliant, and efficiently executed.

❖ Vision

To be a trusted international partner for companies requiring operational structure, regulatory alignment, and execution support in complex and evolving global markets, including energy infrastructure and pipeline development projects.

Each engagement begins with the definition of project scope and objectives, followed by the formalization of contractual agreements.

All activities are documented and aligned with agreed deliverables, ensuring operational transparency and consistency from project initiation through to completion.

This approach is particularly relevant in supporting pipeline and energy infrastructure projects requiring coordination across multiple stakeholders and jurisdictions.

Our Services

The Company provides coordination and supervision of logistics and supply chain activities within international project environments.

This includes planning, vendor coordination, operational alignment, and oversight of logistics flows. Particular focus is placed on logistics activities related to pipeline materials and energy infrastructure operations. All logistics activities are conducted in collaboration with qualified third-party service providers.

EMPOWER CONSULTING LIMITED
EASY SOLUTION

EMPOWER CONSULTING LIMITED
EASY SOLUTION

The Company supports clients in navigating international trade requirements by providing advisory on documentation, tariffs, and regulatory frameworks. Activities include coordination with licensed customs professionals and support in optimizing compliance processes. This includes regulatory requirements applicable to oil & gas and pipeline-related activities.

Messrs,
 C/o,
 No.1,

TEMPORARY IMPORTATION FACILITY PART IIIA - OTHER GOODS, CUSTOMS EXCISE NOTICE NO.14 OF 1/4/59 AS AMENDED RE: MESSRS - APPLICATION DATED 27th OCTOBER 2024 - FIFTEEN (15) UNITS A2-723 PIPELAYER KOMATSU D355C WITH

COUNTERWEIGHTS FRAME AND FORTY-FIVE (45) UNITS ACCESSORIES- HD NO.207/2024 OF 11/10/24.

I am directed to refer to your signed request letter and to convey the Comptroller-General's approval thereof to import **FIFTEEN (15) UNITS A2-723 PIPELAYER KOMATSU D355C WITH COUNTERWEIGHTS FRAME AND FORTY-FIVE (45) UNITS ACCESSORIES** for temporary use for a period of **Twelve (12) months** only.

2. However, the application is granted subject to the following conditions:

- That you notify the Area Controller, **Customs House, PTML** of the place of importation;
- That the goods are cleared out of Customs control not later than **sixty (60) days** from the date of this letter otherwise the permit becomes invalidated;
- That all goods to be admitted on Temporary Importation Permit (TIP) must carry marks, numbers and other appropriate labeling to make for easy identification during exportation when applicable;
- That the application for TIP is accompanied with an Invoice or other satisfactory evidence of value;
- That the goods will not be sold, exchanged, used for reward or for hire

Business Model

Empower Consulting Limited operates under a service-based business model, focused on the provision of consulting and coordination services in support of international operations.

The Company acts exclusively as a consulting and coordination entity, assisting clients in structuring, managing, and aligning operational activities across multiple-jurisdictions. Its role is to support the execution of projects by coordinating processes, stakeholders, and service providers, rather than performing regulated or operational activities directly.

EMPOWER CONSULTING LIMITED

Empower Consulting Limited does not act as a contractor, agent, or financial intermediary and does not engage in the physical trading of commodities or goods. The Company does not collect, hold, manage, or transfer funds on behalf of clients or third parties.

All services are delivered within a clearly defined contractual framework. Revenue is generated exclusively through professional service fees, consulting agreements, and project-based coordination activities.

All financial transactions are conducted through regulated banking channels, are directly linked to identifiable commercial activities, and are supported by appropriate documentation, ensuring full transparency and traceability.

Cross-Border Operations Support

Empower Consulting Limited assists clients in structuring and managing international operations, ensuring alignment between project requirements and local regulatory environments. Particular focus is given to oil & gas and pipeline project environments.

Workforce Mobility & Immigration Advisory

The Company provides advisory support related to workforce mobility, including guidance on visa and work permit requirements, coordination with authorized professionals, and support in planning international personnel movements.

Supporting technical and operational personnel involved in pipeline and energy infrastructure projects.

Compliance and Integrity

- Empower Consulting Limited operates in accordance with internationally recognized standards of compliance, transparency, and professional integrity.
- The Company maintains a structured approach aligned with Anti-Money Laundering (AML) principles and applies strict internal controls to ensure that all activities are conducted in a compliant and transparent manner.
- A zero-tolerance policy is applied in relation to illicit practices, non-transparent transactions, and improper business conduct.

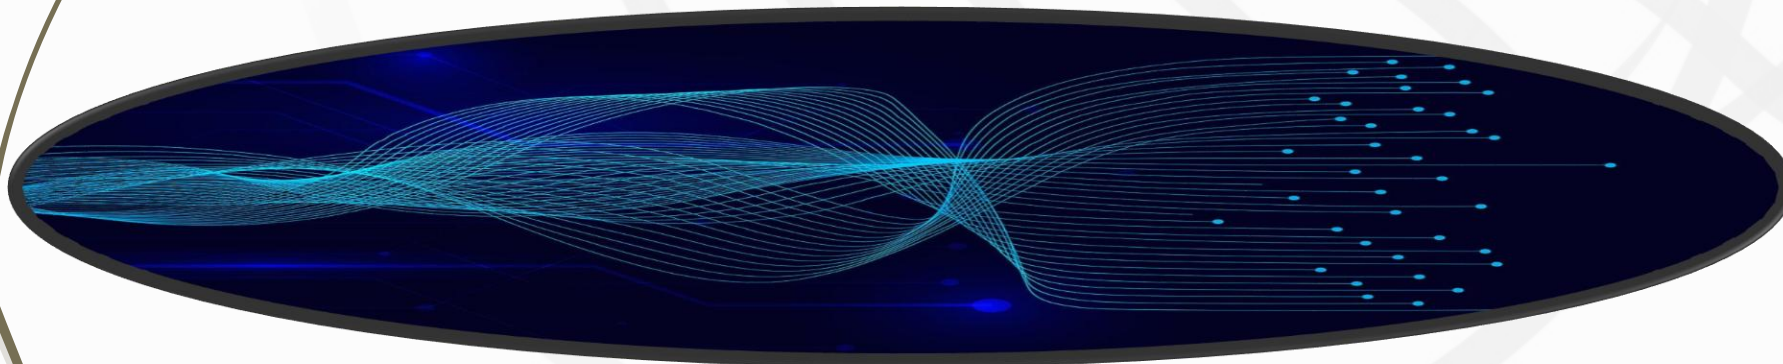

Business Model

The Company operates under a **service-based model**.

Empower Consulting Limited acts exclusively as a consulting and coordination entity and does not operate as a contractor, agent, or financial intermediary.

The Company does not collect, hold, manage, or transfer funds on behalf of clients or third parties.

Revenue is generated solely through professional service fees and consulting agreements, with all services governed by formal contracts and supported by appropriate documentation. All payments are processed through standard regulated banking channels.
